PROFESSIONAL SUMMARY

Technical Product Manager with 5.5 years of experience delivering payments products across merchant acquiring, payment operations, reconciliation, settlement, and reporting, refunds, chargebacks, and post-transaction servicing in regulated financial-services environments. Track record of owning product vision, and end-to-end product roadmap, product requirements, MVP scope, and cross-functional delivery with engineers, analysts, finance, and acquiring stakeholders. Built automation, self-service tooling, and data insight workflows for fintech that improved transparency, operational efficiency, and SLA performance at scale.

PROFESSIONAL EXPERIENCE

Deqollab, *Business Development Lead (Freelance)* 07/2025 – Present

- Structured stakeholder requirements into delivery plans and execution roadmaps, supporting clearer prioritization and alignment between business objectives and implementation expectations.

Relocation Break 01/2025 – 06/2025 | Netherlands

American Express GCS, *Senior Associate - Digital Product Management* 09/2022 – 12/2024 | India

- Led design and delivery of a one-stop financial technology operational platform used by 150 internal users to streamline issue resolution and payment data workflows for large corporate clients.
- Defined requirements, product vision, product roadmap, MVP scope, prioritization, testing/UAT, rollout, performance tracking, and leadership reporting for card-payment operations with ERP/client-system integrations and a partial shift from file-based transfer to API-enabled delivery by partnering with engineers and data analysts.
- Owned the end-to-end journey across client identification, SPOC mapping, settlement-reporting template validation, raw-versus-transformed data selection, file handling, and issue/exception tracking, reducing manual intervention and improving workflow consistency of data financial products.
- Integrated 5 key data sources supporting 22,000 client entities and ~70,000 daily data files, improving turnaround time and data quality by 33% while strengthening SLA performance.

Axis Bank, *Manager - Digital Journey Management* 06/2019 – 09/2022 | India

- Led journey design for dispute management, transaction servicing, and card payment workflows across retail and corporate banking.
- Acted as SPOC for 7 strategic projects, including 3 across disputes, merchant acquiring, and card payment journeys.
- Designed dispute and fraud flows across ATM, POS, IMPS/UPI, merchant acquiring, and card-not-present/E-commerce journeys.
- Automated reconciliation and exception-handling workflows, improving key credit handling from ~3 hours to 5 minutes and increasing daily case resolution to 200+.
