PROFESSIONAL SUMMARY

Aspiring Global Data Quality Consultant with 5+ years delivering commercial data, reporting, and data-sharing products in regulated financial services. Led design and rollout of data quality frameworks and monitoring at the data-product level, defining thresholds and KPIs to improve trust in finance and regulatory reporting. Strong collaborator across business, data engineering, governance, and risk teams, with experience embedding governance into delivery, and improving data reliability to enable advanced analytics and AI use cases.

PROFESSIONAL EXPERIENCE

Deqollab, *Business Development Lead (Freelance)* 07/2025 – Present

- Structured stakeholder requirements into delivery plans and execution roadmaps, supporting clearer prioritization and alignment between business objectives and implementation expectations.

Relocation Break 01/2025 – 06/2025 | Netherlands

American Express GCS, *Senior Associate - Digital Product Management* 09/2022 – 12/2024 | India

- Owned data management for data-sharing and reporting products, prioritizing initiatives where data accuracy, consistency, traceability, data quality standards, and data governance were critical to finance and regulatory reporting across the US, Canada, and India, within an **Informatica IDMC**-enabled data environment.
- Designed and implemented KPI-based data quality monitoring across completeness, validity, accuracy exceptions, duplicate rate, threshold breaches, issue remediation time, and DQ rule coverage, using **Informatica CDQ** capabilities to drive corrective actions through monthly reviews and improve establishment data reliability by **33%**.
- Embedded data governance controls into delivery, UAT, and release processes, and improved reliability across **3–4 reporting outputs** through stronger data definitions, traceability, and governance controls, supporting enterprise-wide data quality objectives on **Informatica IDMC**.
- Implemented **Informatica IDMC, CDQ, and CDI** for data cleansing, profiling, validation, standardization, and multi-source integration across **multiple source systems**, while ensuring **100% compliant** release controls for a PII-heavy product.

Axis Bank, *Manager - Digital Journey Management* 06/2019 – 09/2022 | India

- Worked on data-intensive regulatory and operational banking platforms, translating regulatory, risk, and business requirements into data-driven product and process changes.
- Designed and improved digital onboarding and internal banking journeys across front-, mid-, and back-office teams, ensuring data capture, controls, and flows met governance and audit requirements.
- Modeled processes using BPMN and maintained process documentation to support operational consistency, release validation, and smoother handoffs across business, risk, and IT stakeholders.
- Proactively used tools to monitor data trends and anomalies, supporting data-driven decision-making for global operations.

SKILLS

Data Product Ownership, Data Quality Frameworks & KPIs, Data Quality Monitoring, Metadata & Data Ownership, Data Lineage & Traceability, Governance in Regulated Environments, Stakeholder Management & Alignment Requirements, UAT & Release Validation Tools: Informatica, Languages: English, Dutch, Hindi

EDUCATION

Symbiosis International University, *MBA - IT Business Management* 06/2017 – 03/2019 | Pune, India

IIS University, *Bachelor of Computer Applications* 06/2014 – 04/2017 | Jaipur, India

CERTIFICATES

- Data Management Essential Training | AI-First Product Leadership | AI in Project Management | Agile Practices | Design Thinking | Cybersecurity GRC

INTERESTS

Living and working as an expat in the Netherlands, adapting to new cultures and ways of working. Exploring cities and nature, bouldering, and painting, help me stay focused, curious, and balanced.
