PROFESSIONAL SUMMARY

Customer Journey Expert / Product Delivery Manager with 5.5 years of experience in regulated financial services across Axis Bank and American Express. Experienced in merchant acquiring and E-commerce Acquiring across POS, digital payment workflows, and card-not-present journeys. Strong in translating business and regulatory requirements into scalable payment solutions across authorization, settlement, refunds, chargebacks, reconciliation, and fraud controls.

PROFESSIONAL EXPERIENCE

Deqollab, *Business Development Lead (Freelance)* 07/2025 – Present

- Structured stakeholder requirements into delivery plans and execution roadmaps, supporting clearer prioritization and alignment between business objectives and implementation expectations.

Relocation Break 01/2025 – 06/2025 | Netherlands

American Express GCS, *Senior Associate - Digital Product Management* 09/2022 – 12/2024 | India

- Led the digitization of reconciliation and operational processes across 5 integrated data sources, improving turnaround time and data quality by 33% in a regulated financial-services environment.
- Worked with stakeholders across the US, UK, Canada, and India, including risk, compliance, product, business, engineering, and senior management, to translate operational needs into delivery-ready requirements and execution plans.
- Supported operational journeys for corporate clients and external business entities, including exception handling, dispute-related MVP delivery, API integration support, validation, testing, release readiness, and production support.
- Contributed to digital payment workflows relevant to E-commerce Acquiring by coordinating implementation support, partner dependencies, and process changes across cross-functional teams.

Axis Bank, *Manager - Digital Journey Management* 06/2019 – 09/2022 | India

- Delivered merchant acquiring and **E-commerce Acquiring** solutions across POS, digital payment workflows, and card-not-present journeys in a regulated banking environment across India.
- Translated business and regulatory requirements into BRDs, FRDs, technical specifications, and test cases for payment solutions, supporting UAT and release validation.
- Covered end-to-end payment journeys across authorization, settlement, refunds, chargebacks, reconciliation, exception handling, and operational controls in **E-commerce Acquiring** and broader merchant payment workflows.
- Integrated delivery across 4 connected systems and coordinated with 3 external vendors across CRM, reconciliation, and technology delivery.
- Reduced cycle time by 25% and lowered process errors by 30% through stronger validation logic, better handoffs, and more structured implementation with engineering and partner teams
